TECHNICAL SKILL

8 Years of R&D experience on computer networking and cloud computing; Love open-source projects, e.g., OpenStack, OpenvSwitch, OpenDaylight and Docker.

- Extensive knowledge of cloud datacenters, e.g., network virtualization, SDN and security.
- Deeply understand the networking architecture, protocols, and popular techniques.
- Master common system programming languages and tools, e.g., C/C++, Python, Java.

BACKGROUND

Jan 2013 ∼ Present	IBM Research	Researcher in Cloud Computing
Sep 2007 ∼ Jan 2013	Tsinghua University	M.E. and Ph.D. in Computer Networking
Sep 2010 ∼ Sep 2011	UC Berkeley	Visiting Researcher on Computer Science
Aug 2003 ∼ July 2007	Tsinghua University	B.E. in Department of Automation

EXPERIENCE

Architect & Chief Developer **Enterprise Cooperation Platform** Aug 2014 ∼ present
Design the architecture and implement the backend message exchanging system, main techniques including coroutine programming, database, MQTT protocol, etc.

Lead Developer **OpenStack Heat Plugin** Jan 2014 ∼ Dec 2014
Design and develop Heat plugin for internal product, mainly including OpenStack, RESTful API etc.

Researcher & Developer **SDN-VE production** Jan 2013 ∼ Oct 2014
SDN-VE is the flagship product in SDN. Design and develop the service chaining component, mainly including SDN, OpenDaylight, and Java programming with OSGI.

Assistant Researcher **Extensible SDN Control Platform** July ∼ Dec 2012
Design scalable SDN Control architecture to overcome the performance bottleneck. Hack the kernel code in OpenvSwitch and Floodlight, extend the OpenFlow protocol to implement the platform.

Visiting Scholar **Forwarding Problems in SDN** Sep 2010 ∼ Sep 2011
Research on network management problems with OpenFlow/NOX under the supervision of Prof. Scott Shenker. Proposed a new routing mechanism to guarantee failure resilience. Publish 2 papers in top conferences (IEEE INFOCOM, ACM HotNets).

R&D Staff **20 G bps Security Gateway System** Aug 2007 ∼ Oct 2009
863 program. Design and implement the forwarding and classification modules. Published several papers in top conferences & journals (ACM ANCS, IEEE Transactions on Computers).

PATENT

Published 9 patents on Cloud Computing, Software Defined Networking and Internet of Things.

SELECTED HONOR AND AWARD

IBM Ph.D. Fellowship Awards	IBM Corporation	2011	9 winners in China
First Class Scholarship	Tsinghua Univ.	2006, 2009, 2011	Top 5%
